

The image shows an outdoor experimental setup. In the foreground, a wooden picnic table is used as a base. On its central plank, a small wooden block holds a black electronic device, which is the Orpak Nuzzel reader. A white sign with black text is placed on the table in front of the device. Behind the table, on a light-colored metal surface, sits a grey rectangular power supply unit with a circular port. A vertical metal pole rises from the power supply, supporting a circular metal frame. The background features a dirt path, green vegetation, and a building under a bright, hazy sky.

Nuzzel reader**

A photograph of an Orpak Nuzzel reader, a small black electronic device, resting on a wooden plank. The plank is part of a larger wooden table or workbench. In the background, a sunset sky with orange and yellow hues is visible, along with silhouettes of trees and a building. A white sign with black text is placed in the foreground, partially obscuring the table.
